# BOOK YOUR DOCTOR'S APPOINTMENT

in social distancing

## Track Doc

The Track Doc mobile application is used to control, manage queues and to reduce waiting time of Doctor's appointment in the Hospitals. Now as a result of global pandemic social distancing is the main agenda of our society and presently the waiting area of doctors OP is filled with lot of people waiting for their turn. Track Doc is a revolutionary app and implementing the App in your hospital will reduce the waiting and gathering of crowd outside the OP area.
